CAPITAL NEWS.

The Annual Report of the Nation Lighthouse Board.

A REMARKABLE GOOD SHOWING OF THE CONDITION OF THE SERVICE.

Nearly Seven Thousand Lights Now Shining in the United States—Swamp Lands in Oregon—Navy Yards to Be Improved—Consuls Recognized—Other Washington News.

WASHINGTON, Dec. 31.—The annual report of the lighthouse board just completed, shows that the total number of lights of all kinds in the country at the close of the last fiscal year, were 6,926, an increase of 428 over the preceding year. There are now 1,986 keepers of lights, for which the board asks an appropriation of \$825,000 for to pay salaries for the next fiscal year.

The board renews its former recommendation that a building, to cost \$210,000, be erected for the use of the board. The insufficiency of room at the treasury department, they say, calls for a new building for the use of the board. The estimates for general appropriations for the lighthouse establishment for the fiscal year ending January 30, 1889, is \$2,292,500. The sum of \$814,810 is asked for the construction of new lights.

Oregon Swamp Lands.

WASHINGTON, Dec. 31.—The secretary of the interior has informed the general land commission that List No. 5, in the district of lands subject to sale at Linkville, now Lakeview, Ore., is canceled. This list embraced some 90,837 acres which had been approved in 1882 to the state of Oregon as swamp and overflowed lands. The action of the secretary is based upon evidence that the report of the agent recommending the approval of the list was false and fraudulent and that at least one-third of the land could in no wise be properly classed as swamp and overflow. The land commissioner is instructed to prepare a new list which shall contain only lands known to be swamp and overflow. As to the remaining lands he is directed to institute an investigation to their character and such as are found to be non-swamp land to be restored to the public domain; subject to any rights which may have attached under the law.

Colorado Indemnity Lands.

WASHINGTON, Dec. 31.—Land Commissioner Stockholder has rejected the claim of the state of Colorado for lands selected by the state as indemnity for losses from the school grant by reason of the school sections that are included in the Ute Indian reservation. The selections were combined in certain lists, transmitted to the commissioner from the officers at Pueblo, Leadville and Glenwood Springs, Col., and cover 377,195 acres of land. The ground of the rejection is that the lands were all selected in one body, which is not in conformity with the act of March 3, 1875, admitting Colorado to the Union. This act provides that lands selected as indemnity for loss of granted school lands shall be "as contiguous as may be" to the land lost. The rejected selections will be subject to settlement and entry.

Navy Yard to Be Improved.

WASHINGTON, Dec. 31.—The commission appointed to discover ways and means to improve League Island navy yard, at Philadelphia, have recommended an expenditure of over \$4,000,000, besides \$550,000 now on hand, for the construction of a dry dock, and \$75,000 for building a sea wall.

HEAVY-WEIGHT PRIZE FIGHT.

Joe McAuliffe Knocked Out By the Australian Nigger.

SAN FRANCISCO, Dec. 31.—Joe McAuliffe, the champion heavy-weight of the Pacific slope, was knocked out in twenty-four rounds by Jackson, the colored champion of Australia, in this city Friday evening. The fight was witnessed by 2,000 spectators. McAuliffe stood six feet three-fourths of an inch and weighed 220 pounds. Jackson lacked half an inch in stature and twenty pounds in weight. Jackson had the better of the fight all the way through.

In the twenty-fourth round he placed some smashing blows in the Californian's face, forcing him in the corner, and sent in three more blows, the last of which caught McAuliffe squarely in the mouth, sending him down in a heap. He failed to come to time in ten seconds and Jackson was awarded the fight. Up to this fight McAuliffe had a clear record of victories. According to the stipulations of the fight Jackson will be open to fight any man in the world for \$5,000, backed by the Athletic club of California.

Framing Powder Explosion.

PUYALLUP, W. T., Dec. 31.—An explosion of gun powder yesterday morning blew a cabin on the outskirts of town to pieces. James Blagg was killed and Leroy Gow was badly injured. The men were engaged in clearing land, and had the powder stored in the cabin. How it was exploded is a mystery, as Gow was too badly hurt to talk.

Probably Not Her First Crime.

NEW LEXINGTON, O., Dec. 31.—It is said that Mrs. Whitney, who murdered her husband last Sunday, is liable to be brought up for disposing of at least two of his predecessors in the same way. The story, as given by the gossip, has enough of dark romance about it to fill a volume with orange yellow covers.

A LETTER FROM HAYTI.

The Full Particulars of the Release of the Haytian Republic.

WASHINGTON, Dec. 31.—The following letter has been received dated on board the United States steamer Galena, off Port-au-Prince, December 21: "The United States steamers Galena and Yantic, which left New York, December 12, steamed into the harbor of Port-au-Prince, December 20 at 9 a. m., with shotted guns, torpedo boats, ships cleared for action and crews standing in quarters to demand of the alleged Haytian government the instant release of the steamer Haytian Republic. On their arrival on the outer harbor Rear Admiral S. B. Luce, transferred his flag to the Yantic, which has a draught of but fourteen feet. The Yantic was then run slowly into the inner harbor, where the Haytian Republic was at anchor. A stern line was attached to the latter vessel, the guns of the Yantic being trained on the city.

"Lieut. Griffin went ashore with communications from the state department and Admiral Luce, demanding the release within four hours of the detained vessel, and the withdrawal of her guard under formal protest and appeal for future arbitration. Legitimate command one of his gunboats to tow the Haytian Republic to the position in the outer harbor which she occupied when captured, and had such slight damage as had been done to her repaired by his mechanics. Her anchor chains become fouled, however, and she was not towed out until the next day.

"It is an acknowledged fact that Legitime had contracted to sell the Haytian Republic to the Atlas line and her release was secured in the nick of time. It is said that Legitime would not have released the Haytian Republic if a French man-of-war had been in harbor, the influence in the French government through their minister at Port-au-Prince being very strong. The National assembly, on December 18, declared Legitime president by a unanimous vote. All foreign powers were immediately informed of his election and a portion of the navy was ordered to this port to participate in the demonstration in honor of that event and to take part in the inaugural fetes.

"The United States flag, after an absence of eleven days, was then returned to the masthead of the Haytian Republic, and was flying when the American vessels arrived. After having bombarded Cape Haytien, Port de Paix, San Marc and other smaller ports on the north and west coasts, and completely demoralizing all foreign and coasting trade, it has been decided to advance the warships in connection with the army marching to meet the forces of Gen. Hippolite. Skirmishes have occurred on the frontier between small detachments of the armies, and news of a general engagement near San Marc is momentarily looked for.

"The inhabitants of the bombarded ports are in a destitute condition.

"Admiral Luce and thirteen of the Galena's and Yantic's officers on Friday paid an official visit to President Legitime and his cabinet. The president received them cordially and expressed friendly feelings for America. In reply, Admiral Luce said that America had always encouraged republics, especially those of the West Indies, and particularly those composed of Africans. He then alluded to the civil war in the United States which had resulted in the freedom of that race in the great republic.

"To-morrow Mr. B. C. Morse, the owner of the Haytian Republic, will submit to President Legitime a claim for \$300,000 damages and detention of the ship and \$150,000 compensation to the crew and passengers."

Other Gunboats Going to Hayti.

NEW YORK, Dec. 31.—A dispatch from Port-au-Prince to the Mail and Express says that the report was current there on December 23 that the French minister had sent a vessel to Martinique requesting the French squadron there to leave at once for Port-au-Prince. The German fleet, the dispatch says, was expected there every day.

The News From the Steamer Prins Maurits.

NEW YORK, Dec. 31.—News is brought from Hayti by the steamer Prins Maurits, which arrived here this morning. The steamer left Port-au-Prince December 22. Everything was quiet here when the Maurits cleared. The United States vessels, Galena and Yantic, were still there as was the steamer Haytian Republic, the cause of all the unpleasantness.

Capt. Shuter, of the Maurits, further reports that Legitime was inaugurated president amid great pomp and ceremony three days before he sailed. The United States war vessels were in the harbor at the time, and the Haytian Republic moored to a buoy in the inner harbor. A conference was held between the new president and Admiral Luce on board the Galena, and it is understood that Legitime made no resistance to the demand for the Haytian Republic's release. The Yantic went around in the inner harbor but soon got off.

A VIGILANT COMMITTEE FORMED.

An Assassin's Bullet Misses Its Mark and Kills a Young Girl.

NEW ORLEANS, Dec. 31.—A rifle shot was fired at Watchman Becker, of the government's works on the Atchafalaya, Thursday night. The bullet entered the brain of his fourteen-year-old daughter, killing her instantly.

Two men, named Callahan and McGuire, who have threatened the lives of a number of men at the works, have been charged with the deed, and a vigilance committee has been formed to hunt them down. The accused are desperate characters, and have demoralized the entire force at the government works. Application has been made to the circuit court to commission a number of men as United States deputy marshals in order to keep the peace.

The Steamer Samana Lost.

NEW YORK, Dec. 31.—The steamer Samana, which left here for Haytian and San Domingo ports November 22, has not been heard from since, and is believed to be lost. She was said to have a cargo of arms aboard for the Haytian insurgents. Her crew consisted of eighteen men.

Rail Scheduling.

PARIS, Dec. 30.—Admiral Krauz, minister of Marine, will make an inspection of the defenses of Toulon. He has submitted a scheme to the government for forming an independent squadron of the men of war composing the Channel fleet.

REVIEW OF TRADE.

A Retrospect of the Closing Years' Business.

WINDING UP WITH A FEELING OF CONFIDENCE.

The Yielding of Prices But the National Results of Over Speculation—R. G. Dur & Company's Last Report for the Year 1888—Failures During the Past Week.

NEW YORK, Dec. 31.—R. G. Dur & Company's weekly review of trade will say in closing the year 1888: The fact may be with propriety noted that the course of market and of prices has been foreshadowed in this review with much correctness for stocks. It was on the 16th of June that the lowest prices of the summer were made, and on that day this review said: "There are some signs of recovery." The rise from that point to September 29 averaged \$7.42 per share. The highest prices of the year were made September 29, and on that day the review said: "Much realizing by foreign holders is reported, and trade has been checked by artificial prices."

For highest commodities the highest average of prices during the year was made March 31 and on that day the review noted: "The disposition of customers to act with great conservatism buying only as they are compelled to buy, and this appears in many of the leading branches of trade. It is in part the fruit of expectation that prices may go lower, and in part due to perceptor that the demand for commodities has slackened and may demand still more." The average decline from that point to June 30 was about 11 per cent. On the latter day when the prices were the lowest of the entire year, the review said: "The general average of prices of commodities is but a small fraction lower than a week ago and if crop prospects should prove less favorable some advance might at any time begin."

It actually began that day, but speculation which looked for an enormous rise in consequence of the expansion of currency have been constantly warned that the condition for a general and prolonged advance did not exist and in fact the highest point reached since June gave an advance of only 6½ per cent. from the lowest. While it is not any part of the object of this review to guide or foreshadow speculation, it is recognized that an understanding of the forces which govern the more important speculative markets is at all times a service to men engaged in legitimate business.

Trade during the past week has been undisturbed by the monetary pressure often experienced near the end of the year, and has on the whole improved. The long fore shadowed break in wheat speculation came with a fall of six cents on Wednesday at Chicago, but there has been some recovery sales here have been but sixteen million bushels for the week, and it is still uncertain whether prices have declined enough to permit the marketing of the large surplus in the country has on hand. Enormous crops in Russia and the Danubian states, with lower freight, keep European prices low, and there is constant unloading by operators throughout Europe who bought heavily when the crop scare prevailed.

Corn closed one and one-fourth cent lower, oats half a cent lower, pork twenty-five cents per barrel lower, while hogs rose twenty-five cents per 100 pounds. Cotton was steady, with sales for the week of 310,000 bales and coffee unchanged, with 204,000 bags sold. A break in oil dropped the price five and one-half cents, and refined also declined ten cents per 100 gallons. This general yielding in speculative markets is but a tardy recognition of the fact while speculation was stimulated by currency expansion, prices became essentially artificial, and the connection of markets with the laws of supply and demand was broken.

No monetary pressure now forces liquidation; throughout the country the market are amply supplied, though slight closeness is noted at St. Paul, and frequency of failures causes some uneasiness at Memphis. The treasury is still putting out more money than it takes in, \$1,200,000 during the past week, and the outgo of gold has ceased for the present, though bank rates at London remain 5 per cent., while money on call at New York is quoted at 4½ per cent. The merchandise exports improve from New York for December, exceeding last year's by 6 per cent., which indicates a remarkably large movement when wheat shipments are still so nearly prohibited. The excess of exports over imports for November was even larger than preliminary statements foreshadowed reaching \$22,510,394 merchandise, and \$3,415,475 gold.

Trade accounts from the interior are generally satisfactory, though no improvement is seen at Memphis, and the iron, steel and coal trades at Pittsburg are dull. Cold weather at Omaha and snow in Wisconsin have improved the situation, and much confidence is almost everywhere felt as to the business of the coming year. From Rochester full returns of the year's transactions show large aggregates in all the wholesale departments with an unusually small percentage of losses. At Philadelphia the iron trade is perplexed and uncertain, and it is believed that concessions in price have been made, but more active bidding is noticed. Steel blooms are unsettled and low cut rails and manufactured iron look better. Copper and tin are unchanged; the syndicate has been obliged to increase its holdings of copper by several thousand tons and the stock is now supposed to be 100,000 tons in Europe and 30,000 tons here, held at forty-five million or more. In that connection further depression in the market at Paris and mother heavy fall in Panama stock may be noticed.

Reports of railroad traffic show that a very large business is in progress—indeed the east-bound shipments last week were 111,000 tons the largest ever reported, against 54,000 tons for the corresponding week last year. Earnings continue good and the Vanderbilt road make highly encouraging reports with some improvement in dividends. The course of stocks during the past week has been decidedly favorable to holders, especially in a few of the more active shares, and the general

eral average of prices is about a dollar per share higher than at the opening of the year. Prices of commodities on the other hand still tend downward, having declined about one and one-half per cent. in December and about eight and one-half per cent. since January 1.

The year closes with general confidence, rather greater, indeed, than the present state of price and rate of consumption in some of the most important industries, appear to warrant. But the marvelous growth of the country continues, and insures increasing demand for products at no distant day.

Business failures during the last seven days number for the United States, 275; Canada, 23; total, 299; as against 311 last week, and 233 for the corresponding week of last year.

THE WATERS WENT AWAY.

A Steamer Schooner Left on a High Rock Loaded With Furs.

PORT TOWNSEND, W. T., Dec. 21.—The steamer Idaho arrived from Alaskan ports last evening bringing news of the wreck of the steamer schooner Leon Prince Frederick sound, about seventy miles southeast of Juneau, on November 23. The Leo left Seattle one month previous laden with a general cargo of furs. Stormy weather ensued and she went into Prince Frederick sound and anchored. The tide receded and the storm abated and the Leo was left high and dry on a ledge of table rock. The vessel settled down a distance of ten feet, striking her stern on rocky bowlders and completely demolishing the keel.

The tide fell twenty-four feet. The crew landed on the beach, half a mile distant, and saved nearly all the vessel's gear, while the cargo was lost. A boat with five men was sent to Juneau for assistance, and the rest of the crew remained on the beach for twenty-two days, waiting for assistance. Capt. Whitford and the cook remained at the scene of the disaster guarding the saved material. The Leo is a total wreck. The Leo was valued at about \$12,000. The cargo was very valuable.

WIDE DOORS TO FRAUD.

Nebraska's Banking Laws Let Them Remain Open.

OMAHA, Neb., Dec. 29.—The failure of several Nebraska banks within a week has caused considerable uneasiness throughout the state. These failures, however, are not due to financial stringency, and in some instances it looks as though there was a deliberate purpose to defraud on the part of those conducting the institutions.

The state laws governing private banking are very lax. The statute requires that all corporations engaged in banking shall annually make report under oath to the state auditor of their resources and liabilities. There is no provision for state inspection, and, owing to this oversight, numerous banks have sprung into existence. Ever since the big swindle perpetrated by the Valparaiso bankers, less than a month ago, the press of the state has been vigorously urging the need of a revision of the banking laws, and one of the first matters which will be acted upon by the coming legislature will probably be on this important subject.

A Chinese Murderer Hanged.

SAN FRANCISCO, Dec. 31.—The only feature of note connected with the hanging of Leong Sing, the Chinese murderer, Friday, was the fact that his countrymen shunned him. The Catholic priests tried in vain to convert Sing, but he would not listen to them. The murderer grew very nervous as his last hours approached, but he preserved wonderful nerve and marched forth calmly as the noon hour struck. His legs and arms were plumed, during which he closed his eyes. Then the trap was sprung. His neck was broken, and death must have been instantaneous. All pulse vanished in ten minutes. Among the crowd present in the jail yard was Coquelin, the French comedian. Sing was hanged for the murder of his uncle nearly two years ago.

Not as True as the Scales.

SAN FRANCISCO, Dec. 31.—Charles F. Merle, president of California Bonanza and Fertilizer company, agent of N. K. Fairbank & Company, the Chicago land firm and a general broker doing business at 116 California street, has disappeared. He left his office last Friday afternoon, saying he was going to Sacramento and would be back Saturday morning. He has not been heard of since. His friends were alarmed at his absence, but admitted yesterday that he had fled, but could not say how much he had taken. General rumor placed his shortage at \$90,000. He had been in business for sixteen years, and was Fairbank's only San Francisco agent.

Mistook His Neighbor for a Burglar.

CINCINNATI, Dec. 31.—Thomas Hayman, a well known citizen of Dayton, Ky., mistook William Murdock, a neighbor, for a burglar shortly after midnight and shot him in the back with fatal effect. Hayman had been missing chickens, hay, etc., from his barn, and was on the watch. He saw Murdock on the premises, acting suspiciously, and he blazed away. Murdock lived only a few minutes after being hit. Hayman travels for a St. Louis drug house, and Murdock was out of work. Hayman has been arrested. Murdock, just before expiring, declared that he was in his own door-yard when shot.

It Is Undoubtedly a Volcano.

CHAMBERLAIN, Dak., Dec. 31.—There is now no doubt that the great phenomenon in Charles Mix county is not caused by burning coal alone. There is a great volume of steam constantly issuing from the crevice, accompanied by a strong sulphurous odor and a light colored smoke. The earth for many feet about is warm. It is also phosphorescent and can be seen at night for many miles. At frequent intervals a deep, rumbling sound is heard for a long distance. The phenomenon is situated on that portion of the Randall military reservation which was lately thrown open to settlement.

Pay Too Much for Powder.

SCRANTON, Pa., Dec. 31.—The miners of the anthracite region are stirred up considerably over the powder question, and it is the one topic of discussion among them, owing to a refusal of Superintendent Storris, of the Delaware, Lackawanna & Western company, to reduce the price from \$3 to \$2 a keg, as demanded by the committee representing all the company's mines that waited on him. Unless some concession is made by the companies it is not unlikely that it may lead to a strike early in the new year.

AN OLD CITIZEN GONE.

Death of John Ryder at the Age of Eighty-five Years and Six Months.

Another one of Maysville's old citizens has passed to his long rest.

The venerable John Ryder died Saturday afternoon about 2:30 o'clock at the home of his son-in-law Mr. W. E. Wood, in the East End.

The deceased had been in feeble health for several years. About one month ago he was taken down with an attack of erysipelas. His condition became more critical as the days went by until finally the old man, bent with age, sank into the sleep of death.

Mr. Ryder was born at New Brunswick, N. J., June 29, 1803, and came to Maysville when he was nineteen years of age. He was a shoemaker, but after following that trade a short time he went to work for Sam and Larry Gulick, clockmakers. Mr. Ryder soon became an adept at the business, and in after years devoted his time almost exclusively to repairing clocks. He went about over this and neighboring counties in following this business, visiting the homes of the people until his name became a familiar one in most every household in the farming community.

At the age of twenty-five he married Nancy Cunningham, of Aberdeen. Seven children in all were born of this union, most of whom survive their parents. Two of his sons are Messrs. William H. Ryder and Frank T. Ryder, the painters, of Chester. The deceased united with the Christian Church early in life and was a consistent member. He was a good man and was esteemed by his neighbors and acquaintances.

The funeral will take place this afternoon at 2 o'clock at the home of his son-in-law, Mr. W. E. Wood. Services by Rev. W. S. Priest.

When in the eighty-first year of his age he was in Aberdeen one day and in passing the house where he was married he noticed a rosebush planted by his wife when she was a girl. Plucking a slip he wended his way to his wife's grave and transplanted it on the green mound that marked her last resting-place. The following verses written by him on the occasion were published in the BULLETIN at the time:

"A rose tree in full bearing
When I was made a groom,
Full eight and fifty years ago
Has never ceased to bloom.

"When the bloom begins to fade
And its beauty to decay,
By it I am admonished
That I must pass away.

"Full sixty years ago
It was planted by my bride—
Will some kind hand transplant it
Where we lie side by side?"

THE Louisville Times is inclined to make light of the move among tobacco-growers to prevent over-cropping and thus secure better prices. It says: "Four hundred Nicholas County farmers met the other day and swore off from the tobacco-raising habit. It is thought their example will be followed in many parts of the State, as this is a good year and about the time of year for swearing off; but in this, as in other matters, it will doubtless be found that

"Man resolves and re-resolves, but dies the same."

This is the era of "combines" but the farmers are no doubt too numerous and scattered over too much country to perfect an organization of the kind contemplated.

Says the Paris Kentuckian: "Rev. Jos. M. Evans' meeting at Broadwell Presbyterian Church, in Harrison, near the Bourbon line, was one of the most successful meetings yet held in this region. Considering there were only 90 members to begin with, the addition of 57 to the Broadwell Church and 4 to the church at Lair and \$110 for Evangelistic work was remarkable. The Baptist Church at Lexington and the Christian Church at Paris had membership of several hundred from whose families to draw from besides large towns."

THE Maysville and Big Sandy Railway is a sort of sub-treasury for Commonwealth's Attorney Jas. H. Salles. During the past two months he has collected fines amounting to \$900 against the Railway for obstructing the public roads.—Portsmouth Blade.

YOUTHFUL BURGLARS.

Two Young "Coons" in Custody on a Serious Charge.

Mr. John McCormick, who lives on the Fleming pike, saw a box-shaped object in the creek bottom yesterday morning. Getting a spy-glass he took a closer look at the thing and noticed a lot of papers scattered about it. He concluded to make further investigation, and going down found that it was an iron box or chest out of some one's safe. It had been broken open and the papers were scattered about it. The name of Robinson & Co. on some of these papers gave a clue as to whose safe had been robbed. This clue was found correct when the proprietors of the "Old Gold" mills, who had been informed of the matter, entered their office.

The burglars had effected an entrance through a window into the engine room, and then made their way to the office. The outer door of the safe had been left unlocked the evening before, and the iron box was soon removed. Only a small sum of money—between \$7 and \$10—was obtained.

Marshal Heflin and Deputies were soon at work on the case. He concluded at once that the job was the work of "home talent." Bob Wilson and brother were spotted as the guilty parties, and believing they would make their way to Lewisburg, Captain Heflin dispatched Deputy Marshal Fisher to that point. In the afternoon the parties were discovered in "Watkin's Cut." Hearing the officers were after them they started out the Fleming pike. Marshal Dawson and Mr. W. A. Stockdale had also got track of the parties and were in close pursuit of them. Captain Heflin overhauled the accused at the top of the hill, near the Pearce farm, and they were landed behind the bars shortly afterwards. About \$8 in cash was found on the two. Some old pennies were identified by Mr. Robinson and the evidence seems to be conclusive against the accused. They will have an examining trial to-morrow.

Bob Wilson is about twenty years old, and was recently released from the penitentiary where he had served a sentence for stealing some butter from the wharf-boat. His brother, Charles, is only about fifteen.

THE steamer Boone will not be down this afternoon. She is laid up at Gallipolis, and will lose one trip on account of the holidays.

MR. JAMES SELBY has resigned his position on the steamer St. Lawrence to go second clerk on the New Orleans packet Commonwealth.

REV. MR. REEVES, of Flemingsburg, preached at the M. E. Church, South, yesterday. Dr. Dodd was prevented from coming by the illness of his wife.

ROBERT BLACK is fast recovering from the injuries received in the Kentucky Central wreck at Paris a month or so ago. He is under treatment in the Sanitarium at Cincinnati.

THE Enquirer says K. C. stock is way up. On Friday 42 was bid for 100 shares. It sold last summer at 20, and was slow at that. Huntington has the option on nearly all the stock.

It was the intention of Sheriff Alexander to enter on his official duties to-morrow, but the Statutes fix the beginning of his term on the first Monday of the year instead of the first day.

THE Oddfellows' lodge at Millersburg had eleven members a year ago. It now has forty, and is in a flourishing condition. Judge Holt, of the Court of Appeals, will address the lodge next Thursday.

REV. W. S. PRIEST, pastor of the Christian Church here the past year or so, has accepted the call from the Fourth Street Christian Church at Covington. He will leave for his new work the first of February.

JAMES CRAY, the well-known horseman of Millersburg, while trying to drive his brood mare, Selim, into the stable struck her on the head with a small walking cane, which threw her into lock-jaw and caused her death. She was valued at \$1,000.

SIX DROWNED.

A Crowd of Negroes Returning From a Festival Meet a Watery Grave.

Will Brooks, aged twenty-two, Dan Brooks, nineteen, Geo. Brooks, seventeen, Slate Humphreys, twenty-six, Bethe Page, twenty, and Mrs. Nelson Turner, about thirty-five, all colored, were drowned Saturday night in the Ohio river a short distance above Ripley. They all lived near Tuckahoe and were returning from a festival at Ripley. While crossing the river in a john-boat their craft was swamped by the waves of the Telegraph and another boat that were passing. None of the bodies have yet been recovered.

It was reported this morning that a son of Isaac Peggs was also in the boat and was drowned. The name of Mr. J. L. Browning was unintentionally omitted Saturday from the list of securities on Sheriff Alexander's official bond.

THE remains of Michael Gill arrived this morning on the K. C. train, and his funeral will take place to-morrow at 2 p. m. at St. Patrick's Church.

THE members of Father Mathew Total Abstinence Society desire to return their thanks to the ladies for their kind assistance at the supper on the 26th and 27th, to whom the success of the entertainment is due; also to all parties for articles loaned and donated. It is with satisfaction that they report net proceeds of \$97.

LONDON EXCITED.

Another Startling Murder Surrounding in Mystery.

A LITTLE BOY'S BODY FOUND ALL CHOPPED TO PIECES.

Grave Fears Existing That "Jack the Ripper" or an Imitator Done the Horrible Deed—Rumors of Still Another Similar Crime—Other Foreign News.

LONDON, Dec. 31.—The horrible discovery of a young boy's dead and mutilated body was made at Bradford, Saturday morning, and the town is wild with excitement, fearing that "Jack the Ripper," or apt imitators of his, have made their appearance. The body was found in an outhouse and was that of a boy named John Gill, aged eight years.

The boy, when last seen alive, was sliding on the ice with a number of companions. Saturday morning he was found murdered. His legs and arms were roughly chopped off and tied to the body. The ears were cut off and there were two stab wounds in the chest. The heart and entrails were torn out and lay on the ground near the body, which was wrapped in a rough covering and flung in the outhouse. The greatest excitement prevails, many believing that Jack the Ripper has made his appearance.

The police hold the theory that the murder was committed by drunken lads whose minds were inflamed by reading the reports of the Whitechapel tragedies and wanted to imitate the work of the Whitechapel fiend. It is supposed that the murder was committed at some distance from the place where the body was found, and that afterwards the body was carried to the outhouse. No arrest have yet been made, though detectives have been sent down from London.

Later news from Bradford says that a milkman has been arrested on suspicion of having committed the murder. The boy used some time to accompany the milkman on his rounds, and the prisoner was the first to recognize the mutilated body of the lad. It is now certain that the body was placed in the outhouse where it was found between the hours of four to seven Saturday morning.

Another Similar Crime.

LONDON, Dec. 31.—A rumor reaches here from Kighley Yorkshire that the horribly mutilated body of a young boy was found this morning at Kighley, a village near there. The rumor lacks confirmation.

The Premier Applauded.

PARIS, Dec. 31.—The chamber of deputies discussed the senate's amendments to the budget. In the course of the debate M. Bouvetier, of the right, attacked the government for going to extremes in secularizing schools. Premier Floquet, in reply, declared his warmest approval of everything that had been done to secularize the schools. The republic, he said, desired to free education from all religious influence. M. Floquet's speech was received with enthusiasm and applause, and a motion to print and publish it throughout France was carried by a vote of 276 to 166.

Increasing Her Navy.

LONDON, Dec. 31.—As a result of the continued efforts of Lord Charles Beresford to effect reform in the naval department, the admiralty has decided to construct four ironclads, ten cruisers and a number of torpedo gunboats, the whole to cost several millions. In addition to this, orders for armaments have been given to other firms than the Whitworths and Armstrongs, who have hitherto had a monopoly of the government work in that line, which indicates a settled conviction that they will soon be needed.

A Mob in Belgrade.

BELGRADE, Dec. 31.—Last night a mob paraded the streets of this city, nearly causing a riot. They smashed the windows of the Austrian consulate, shouting: "Down with Austria." They then proceeded to the residences of many Austrian citizens and broke in their windows, shouting cries insulting to Austria.

Germany Ordering New Swords.

BERLIN, Dec. 31.—The Prussian government has ordered 70,000 new sabers, 20,000 from a Solingen manufacturer, and 50,000 from Italy, the whole to be delivered within one year. An inquiry shows that the swords broken in the recent fight at Suakin, were of German manufacture.

War Signs Increase.

PARIS, Dec. 31.—The Figaro says: "It has been decided to provide railways with a double line of rails, converging at the eastern frontier. The roads are to cost \$1,050,000,000. It may be hoped that the enemy will allow us time to complete this useful work."

Trouble Looked For.

DUBLIN, Dec. 31.—Evictions was commenced at Gweedore last Wednesday. Troops and police have been ordered to the place to preserve order and assist the evictors. Resistance is expected and many terrible scenes are looked for.

Foreign Notes.

Mr. John Bright is further improved. An earthquake shock was felt in Hampshire, England, Friday morning. Count Tolstol's scheme of administrative reform is certain to be rejected, as it is opposed by the czar and a majority of the council.

The election of the department of the Seine, to fill the vacant seat in the chamber of deputies, for which Gen. Boulanger is a candidate, has been fixed for January 27.

It is rumored in Vienna and Frankfurt that, through the intercession of Princess Elizabeth of Hesse, the czar is disposed to become reconciled to Prince Alexandra of Battenberg.

The London Post and Standard, in fiery leaders, justify an attack upon the Humana, and it is believed that the government will shortly take measures to prepare the public for the reception of news of a fight at that place.

England Retaliating.

NEW YORK, Dec. 31.—Mr. Sunley cables the Tribune as follows: "What the president and secretary of state have to consider is the meaning and intention of Lord Salisbury's act, the reason why he keeps the British legation in Washington vacant. He does it as an act of retaliation for Lord Salisbury's dismissal. It is made as an offense. It will be deemed all over Europe a humiliation to the United States. It is not a question of business, but of self-respect, of national dignity. Unless Phelps is recalled, and recalled at once, Europeans will say and Americans will have to admit that their government cares nothing for National dignity and is devoid of self-respect."

ness, but of self-respect, of national dignity. Unless Phelps is recalled, and recalled at once, Europeans will say and Americans will have to admit that their government cares nothing for National dignity and is devoid of self-respect."

Thrown Over a High Embankment. ST. JOSEPH, Mo., Dec. 31.—At 10:30 o'clock last night a car on the Electric Motor line was struck by a switch engine of the Chicago, St. Paul & Kansas City railway at the crossing of Main and Robidoux streets, and the car, with about fifteen occupants, was thrown over an embankment about thirty-five feet high into Black Snake creek. The car was demolished and most of the occupants injured, two of them, William H. Ray and wife, seriously. The latter was injured internally and perhaps fatally.

Trial Postponed.

CINCINNATI, Dec. 31.—The case of William Hopkins, the son of the bank wrecker, Benjamin Hopkins, now in the Columbus penitentiary, who is charged with being an accessory to the Tinkler bank forgery, has been postponed by "Squire Bright" until next Saturday at the request of the attorneys in the case, who wished to attend ex-Judge Johnston's funeral. Both Hopkins and Tinkler are still in jail and their friends have little hopes of getting bail for them.

Furniture and Clothing Fire.

GRAND FORKS, Dak., Dec. 31.—The fire which started in the basement of the Syndicate block last evening was gotten under control about 10:30 o'clock. Following are losses: Ed. C. Richmond, furniture, \$15,000; A. Appel & Company, clothing, \$20,000; The damage to the building will be at least \$15,000; insured. The other losses are pretty generally insured.

Every Man in Town Arrested.

OMAHA, Neb., Dec. 31.—At a little town in the western part of the state Thursday night F. M. Cutler was severely whipped for beating his wife. Saturday he caused the arrest of the entire male population of the place. The prisoners were taken to Greeley Center, where they will be tried.

Bald Knobbers Break Down a Jail.

SPRINGFIELD, Mo., Dec. 31.—Bald Knobbers broke open the jail at Ozark last night and released Joseph and Wiley Matthews, who were confined there under sentence of death. Dave and William Walker, also under sentence of death were in the same cell but refused to go out.

If You Are Sick
With Headache, Neuralgia, Rheumatism, Dyspepsia, Biliousness, Blood Humors, Kidney Disease, Constipation, Female Troubles, Fever and Ague, Sleeplessness, Partial Paralysis, or Nervous Prostration, use Paine's Celery Compound and be cured. In each of these the cause is mental or physical overwork, anxiety, exposure or malaria, the effect of which is to weaken the nervous system, resulting in one of these diseases. Remove the cause with that great Nerve Tonic, and the result will disappear.

Paine's Celery Compound
Jas. L. Bowen, Springfield, Mass., writes:—"Paine's Celery Compound cannot be excelled as a Nerve Tonic. In my case it single bottle wrought a great change. My nervousness entirely disappeared, and with it the resulting affection of the stomach, heart and liver, and the whole tone of the system was wonderfully invigorated. I tell my friends, if sick as I have been, Paine's Celery Compound."
